

Application Operating Environment

This section describes the operating environment for applications developed using the Epson ePOS SDK for JavaScript.

Refer to the README.en.txt file in the Epson ePOS SDK for JavaScript package for the most recent information on applicable Web browsers.

Supported printers

The following list of printers can be controlled from the applications.

You need to enable the ePOS-Print settings of the single-function and mobile models.
Refer to [ePOS-Print Settings](#) for more information.

Single-function models

☐ Wi-Fi/Ethernet enabled models

- | | | |
|---------------|---------------|---------------|
| • TM-m10 | • TM-m30III | • TM-T20IV |
| • TM-m30 | • TM-m30III-H | • TM-T20IV-SP |
| • TM-m30II | • TM-m50 | • TM-T82III |
| • TM-m30II-H | • TM-m50II | • TM-T82IV |
| • TM-m30II-NT | • TM-m50II-H | • TM-T88VI |
| • TM-m30II-S | • TM-T20II | • TM-T88VII |
| • TM-m30II-SL | • TM-T20III | • TM-L100 |

☐ Printers that are equipped with UB-E04 or UB-R04

You can check the interfaces equipped with the printer by printing a status sheet.
For more information, refer to the Technical Reference Guide of the printer.

- | | |
|------------|-------------|
| • TM-T70 | • TM-U220 |
| • TM-T70II | • TM-U220II |
| • TM-T88IV | • TM-U330 |
| • TM-T88V | |

Mobile models

☐ Wi-Fi/Ethernet enabled models

- | | |
|------------|------------|
| • TM-P20 | • TM-P80 |
| • TM-P20II | • TM-P80II |
| • TM-P60II | |

Hybrid models

- ☐ TM-H6000V

You need to enable the ePOS-Device settings.
Refer to TM-H6000V Utility User's Manual for details.

TM-i series

- | | |
|---|--|
| ☐ TM-T20II-i | ☐ TM-T88V-i (TM-i firmware Ver. 4.0 or later) |
| ☐ TM-T70-i (TM-i firmware Ver. 4.0 or later) | ☐ TM-T88VI-iHUB |
| ☐ TM-T82II-i | ☐ TM-U220-i |
| ☐ TM-T83II-i | ☐ TM-U220IIB-i |

TM-DT series

- | | |
|---------------------------------------|--|
| ☐ TM-T70II-DT | ☐ TM-T88VI-DT2 |
| ☐ TM-T70II-DT2 | ☐ TM-H6000IV-DT |
| ☐ TM-T88V-DT | |
